Hello All,

As you know, the data call for trash data within the Anacostia ended in late October. We received responses from 7 organizations, which I've attempted to summarize in the attached spreadsheet. You can access all the data received using the link provided in a separate e-mail from EPA's automated data sharing site. You should be receiving that e-mail soon. Please note that the files will no longer be accessible after 10 days.

On our end, we've begun discussing how we can use these data to develop a TMDL endpoint and possibly revise the baseline load. In light of the district court's decision allowing EPA "to cooperate with DOEE and MDE to develop a new

trash TMDL,” I am sending along the attached paper regarding endpoint options to further our discussion. These are just some of our initial thoughts, so please feel free to provide feedback and bring other options to the table.

We’d like to schedule a phone call to discuss these options and the data in greater detail. I’m sure you all need some time to review and discuss amongst yourselves, so hopefully mid-December can work. If you agree, let me know your availability for these dates/times.

- Wednesday, December 12<sup>th</sup> from 10-12 or 3-4
- Thursday, December 13<sup>th</sup> from 10-12 or 1-4
- Monday, December 17<sup>th</sup> from 11-12 or 2:30-4
- Tuesday, December 18<sup>th</sup> from 10-11 or 1-3:30
- Wednesday, December 19<sup>th</sup> from 1-2 or 3-4

Thank you,

*Jillian Adair*
